Care Label's Updates: New ISO Symbols, New Languages, New Regulations

There are important updates that affect the requirements of the composition for care labels in all textile products. **TEXLABEL**[®] is the software that provides the best solution to create labels for any textile products, from the simplest monolingual to the most complex multi-language, and mostly to comply with regulations of any country. The solution includes the following:

- New symbols **ISO 3758/2012** in vector format (graphically perfect in any size) for hand and machine washing , bleaching, drying using tumbler and hanging instructions, ironing and pressing, and professional washing
- Automatic translation of symbols of ISO 3758/2012 to JAPAN JIS symbols and ASTM for USA / CANADA / MEXICO symbols
- Automatic translation of care instructions in **25 languages** (Arabic, Bulgarian, Czech, Chinese, Korean, Danish, Hebrew / Israel, Filipino, Finnish, French, Japanese, Greek, Indonesian, Italian, Dutch, Portuguese, Russian, Slovenian, Spanish, Swedish, Thai, German, Turkish, Hungarian)
- Compliance with **EU legislation 1007/2011** for the 28 European countries including **Croatia** from 01/07/2013
- Automatic translation of textile fibres in **43 languages** (all languages of the world used in the market)
- Automatic translation of **sizes from 9 countries** of your choice, optional and customizable depending on the type of product and country
- Automatic translation of part names of the product (inside, outside, lining, padding, border, neck, insert, etc. .) And various notes (Made in, Produced by, Imported by, Distributed by, Keep Away from Fire, etc. .) using a **multilingual dictionary** with over 22,000 common notes
- Insertion with copy/paste logos, trademarks, photos, drawings, symbols, pictograms, barcode
- Over 20 new standard label formats ready to use , single, front / rear, plus labels for each product parts. All sizes are customizable in any aspect (graphics , sizes, language selection , variable data , translations , etc.).
- New versions of **TEXLABEL**[®] in **English** and **Chinese** in addition to Italian , many other languages are coming soon
- Possibility to share label formats with other companies that are using **TEXLABEL**[®]. It is the ideal solution for companies who designs the main label in Italy, and produce finished garments including the label from suppliers/contractors in Italy or abroad. It can be emailed to the suppliers/contractors so they can edit the labels in order to meet the requirements of all markets' laws or to change some of the label's variables (codes, compositions, treatment symbols, notes, etc.). In this way we obtain a uniform label, comply with regulations, uniform translations, and label's to be printed even by those who are not familiar with languages and laws of all countries
- Ability to create labels in **PDF**, **JPG**, **BMP**, **GIF**, to be sent for printing to sub-contractors, foreign manufacturers, label manufacturers, and professional printers
- Massive import of various data for the label from your management software , or from an Excel / TXT / CSV file. Massive maintenance of label's data from spreadsheet

We are pleased to announce our presence from 24 to 27 September 2013 in Brussels Labelexpo Europe 2013 - Hall 12 - Booth 12V68 . Our consultants will be at your disposal to present the new version of **TEXLABEL**°, analyze the needs of your company , create in a few minutes LIVE your personalized Multilingual Care Labels

it's possible to download the brochure , watch the video demonstration **TEXLABEL**[®] and find many other labeling information in our website <u>www.texlabel.eu</u>

If you need commercial information or would like to request a free demonstration online , please reply to this email with your details and the subject of the request , or go directly to the page http://www.texlabel.eu/contact-us/
